

Abdominal (Rectal) Pressure Catheters

Cost effective, single-lumen rectal catheters designed for consistent accuracy of peritoneal pressure measurement and maximum patient comfort. The range includes a choice of 4.5 charriere catheters with PVC flap valve, PVC, latex or silicone balloon. Catheters can be purchased either sterile or non-sterile.

For greater user convenience we also offer Cystometry Sets comprising bladder pressure and filling catheters or bladder filling, pressure and rectal catheters in one pack.
